CONSULTANCY PROJECTS

Formulation of the National Agrarian Innovation Policy and Plan (Jan 2018 - Jan 2019). Consultancy within the framework of the National Agricultural Innovation Program whose purpose was to develop a situational diagnosis of agricultural innovation in Peru and, based on said diagnosis, formulate the National Policy and Plan for Agricultural Innovation.

Consultancy for the design of operational models for the optimization of educational management processes in the Local Educational Management Units (Nov 2018 - Mar 2019). Consultancy to design a new operating model for the Local Educational Management Units in Peru, in order to streamline, simplify and standardize four prioritized administrative processes, which contribute to improving educational quality.

Update of the Master Development Plans of 12 airports managed by Aeropuertos del Perú (Dec 2018 - Jul 2019). Consultancy to update the estimates of demand and supply for the Master Development Plans (PMD) of the 12 airports under concession by Aeropuertos del Perú. From the projections of passenger and cargo demand, it was determined at what year it would be necessary to expand the airports. For more information on PMDs, go [here](#).

CONSULTANCY PROJECTS

Consultancy for the development of strategies that strengthen the Catholic University Sedes Sapientiae in its subsidiary in Chulucanas (Mar 2019 - Jul 2019). Consultancy to develop a study of demand and supply for the implementation of a new university campus of the Universidad Católica Sedes Sapientiae (UCSS) in its branch in Chulucanas, Piura. Currently, the UCSS is in the process of designing and building the new facilities of the new campus in Chulucanas.

Analysis of the situation of children and adolescents in Peru for UNICEF Peru (Jul 2020 - Feb 2021). Consultancy to develop the analysis of the situation of children and adolescents for the new Cooperation Program between the United Nations Children's Fund (UNICEF) and the Peruvian State. This analysis focused on the rights to health, education, social protection, and protection from violence. You can access the executive summary [here](#).

Research project on the performance of public officials in charge of general procurement processes in Peru (Jul 2020 - Jan 2021). Consultancy with the objective of identifying strategies aimed at achieving improvements in the processes of public procurement of medical supplies. Specifically, an intervention based on behavioral sciences was designed and an impact evaluation plan was designed to measure the results of said intervention.

Proposal of crucial indicators for monitoring the institutional management of the Social Health Insurance – EsSalud (Dec 2020 - Feb 2021). Consultancy to design a board of management indicators that facilitate the monitoring and analysis of health benefits, so that the executive management of EsSalud can make better decisions and improve the provision of health services.

Consultancy for the Second Measurement of the Project Integrating Venezuelan Children and Adolescents in Peru for UNICEF Peru (Jan 2021 - Mar 2021). Consultancy to evaluate the final situation of the project "Integrating Venezuelan Girls, Boys and Adolescents in Peru" implemented by UNICEF Peru. The evaluation was carried out based on the measurement of indicators based on primary and secondary information; as well as from the development of three case studies.

Consultancy for the measurement of results of the study of interventions to support public procurement processes in Peru (Mar 2021 - Jan 2022). Consultancy to implement and monitor the intervention designed in the intervention designed to improve public procurement processes for medical supplies, as well as to perform an impact assessment of the intervention. The intervention allowed for a higher purchase award ratio and a reduction in the unit prices of purchases of medical supplies.

Preparation of an analysis of the impact of the modification of the credit to the EPS against the contributions to EsSalud (Jun 2021 - Jul 2021). Consultancy to carry out a sensitivity analysis of EsSalud's income in the face of possible changes in the level of credit received by Health Provider Companies. Likewise, an analysis of the financial impact of said changes was carried out and proposals were made to ensure the financial sustainability of the institution.

Formulation of the Observatory of the "Propuestas del Bicentenario" initiative of Videnza Consultores for the thematic topics of Efficient State, Extractive Industries and Agriculture (Jun 2021 - Oct 2021). Internal project of Videnza Consultores within the framework of the "Bicentennial Proposals" initiative, with the purpose of generating an observatory of indicators that allows evaluating and monitoring 8 key axes with information at the national and regional levels. For more information about the observatory, enter [here](#).

Consultancy for the preparation of a discussion document on the generation of value in the environment of mining projects in Peru and its implications in the conflict (Nov 2021 - Feb 2022). Consultancy to identify the conditions and characteristics necessary for the generation of value in environments where mining activities are carried out; as well as to identify the relationship that exists between these characteristics and social conflict.

Consultancy for the development of a manual of concepts on social relations in the Southern Mining Corridor for MMG Las Bambas (Mar 2022 - May 2022). Consultancy to develop a manual of concepts that lay the foundations for designing and implementing an effective relationship strategy for the company MMG Las Bambas with the institutions and actors in the southern highway corridor (Apurimac - Cotabambas, Cusco - Chumbivilcas and Arequipa).

CONSULTANCY PROJECTS

Consultancy for the identification of the institutional arrangement for the implementation of the Program in the Southern Mining Corridor (May 2022 - Jul 2022). Consultancy to develop an analysis of the possible institutional designs or options for the implementation of the investment program under a territorial approach, as well as to carry out a comparative analysis of the identified institutional designs or options.

Estimation of the fiscal and economic impact of the energy transition in Peru (Aug 2022 - Dec 2022). Consulting to develop the estimate of the fiscal and economic impact of the energy transition of the Peruvian electricity matrix, in terms of loss of gas royalty collection.

Consulting for the measurement of results of the RG-T1736 study: Intervention to support low-value public procurement processes in Peru (Sep 2022 - Dec 2022). Consulting to implement and monitor the intervention designed to improve small-value public procurement processes in public entities in the health sector, as well as to carry out an impact evaluation of the intervention.

Technical Assistance for the integration of the processes that make up the Multiannual Investment Programming and the Multiannual Budgetary Programming in terms of investments (Sep 2022 - Jan 2023). Consulting to prepare a proposal to optimize the automation and interrelation between the processes of the Multiannual Investment Programming and the Multiannual Budgetary Programming in terms of investments.

Technical Assistance for the exploration of financial instrument options that contribute to the conservation and sustainable use of biodiversity, with special attention to pollinating insects (Dec 2022 - Feb 2023). Exploratory study on the options for financial instruments that contribute to the conservation and sustainable use of biodiversity, with special attention to pollinating insects in Peru, Mexico, Costa Rica and Brazil.

Implementation of the third measurement of the 2023 social capital index to community organizations in the DAIS (Comprehensive and Sustainable Alternative Development) field and comparative analysis of the results of the three measurements (Mar 2023 - Jul 2023). Consulting to develop the third measurement of the Social Capital Index for 24 producer organizations and 34 neighborhood organizations within the scope of the USAID DEVIDA Institutional Strengthening Project; as well as the systematization of the design and application process of the Social Capital Index in 2019, 2021 and 2023. This work involved a documentary review and qualitative field work to identify strengths and opportunities for improvement in the application of the ICS.

Consulting for the systematization of public management experiences or practices of the USAID Project: Institutional Strengthening of DEVIDA (FID) (Apr 2023 - Sep 2023). Consulting for the systematization of five public management experiences of the FID Project. The experiences prioritized by the FID Project were: i) strengthening of contracting management, ii) strengthening of producer organizations through the VEO tool, iii) promotion of obtaining financing in community organizations, iv) strengthening of investment management in municipalities and v) obtaining additional municipal resources for public investment. This work involved a documentary review and qualitative field work to identify strengths and opportunities for improvement in the five experiences prioritized by the FID Project.
